

# *Dr. Richard Southern*

*will give a talk entitled*

## ***“Modelling Human Locomotion: Lessons from Motor Control, Robotics and Biomechanics”***

**Tuesday 25<sup>th</sup> July at 7.30pm**

at Bournemouth Natural Science Society  
39 Christchurch Road BH1 3NS ([www.bnss.org.uk](http://www.bnss.org.uk)).

As usual visitors welcome.

*Dr Southern is a Principal Academic in Computer Animation at Bournemouth University. He will discuss why, in comparison with (most) humans, do robots look stiff when walking? All (or at least some) will be revealed in this exploration of contemporary wisdom of how we control our bodies.*
