2:30 p.m. Saturday 23rd March
“Quirky Astronomy”
A talk by Geoff Kirby

The face on Mars

This subject is taken from Geoff's book "Wacky and Wonderful Misconceptions About Our Universe". This includes such gems as unicorns on the Moon, UFOs piloted by bees, the face on Mars and the rogue planet Nibiru. Which of them will Geoff talk about?

This talk has been rescheduled from February 26th in the original programme.

Geoff lives locally, is a regular attender at BNSS meetings and an author of several books on astronomy.
