TAHEMAA

A new chapter in her story

Join us Tuesday 30 April 2019 at 7:30pm

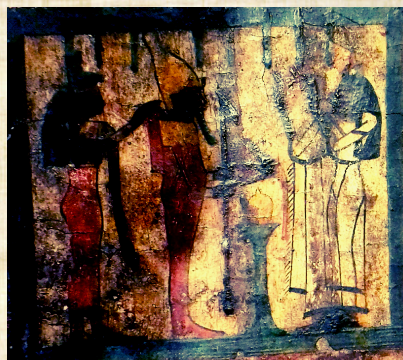

Presentations on Tahemaa's life and afterlife, featuring a new facial reconstruction created by Vanessa Pearson, a 3rd year student at the Arts University Bournemouth.

Learn about the life and times of this 25th Dynasty Egyptian daughter of a Karnak priest who lived circa 700BC, and how her facial reconstruction was created.

Representatives from Bournemouth University's Archaeology and Anthropology departments, the Salisbury Museum, and AUB will be on hand to discuss the historical research and model making techniques behind this reconstruction
